General Notes

The December general meeting was held at Metro. The main presentation was given by Michael Fales. Michael reported on the progress of his current project, a figure head carving to be used as a pattern for a duplicating process.

Dennis Kercher presented a modified dovetail jig which he and his shop people have developed.

The election for the post of Vice President was also a part of the evening. Ken Friemuth was elected.

The post of Secretary was up for the election process, however, due to the lack of candidates the position is vacant. The problem to be worked on at the Dec. Board Meeting.

The various committee heads gave their reports. More info. to follow.

— December Board Meeting —
