

# FRONT RANGE WOODTURNERS

VOLUME 1 - NO 11

NOVEMBER 2001

*Season's Greetings*

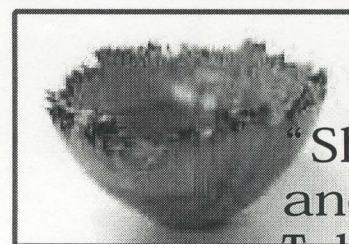

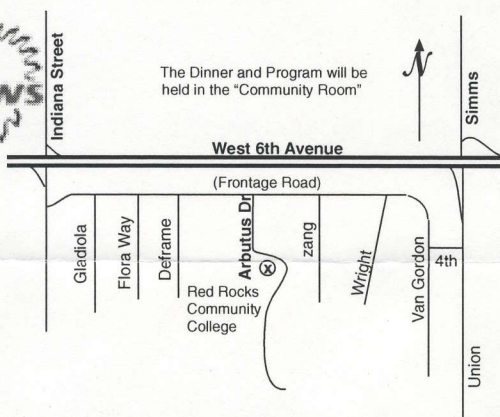

The plans for the Christmas Party **Tuesday December 4th** have been finalized. Kathy Kula has made the arrangements for the room at **Red Rocks Community College** campus, in the "**Community Room**" (See Map below for directions.) FRW is providing the main meat entre, rolls and drinks. Those attending are asked to argument the menu and bring the following dishes, Last names beginning with "A" thru "I" should bring a desert; "J" thru "R"...a vegetable; and "S" thru "Z"...a salad. This should be a outstanding dinner! In addition plans are to include many "door prizes," an auction of turned and other items (donated by members to our club for this fund raiser), a "Show and Tell" table of your favorite pieces for display (or for sale if you wish). Any items you feel you could donate for the auction will be greatly appreciated and acknowledged.

the  
WOODWORKING shows

Ron Embery, membership chairman and show coordinator is ready for this year's show. Helpers and demonstrators are all scheduled for their participation. The show dates are... Dec 7th(noon-7pm), 8th(10-6), and the 9th(10-4). Located the same as last year(451 E. 58th Ave, Denver Merchandise Mart in the-Mart Pavilion behind the Mart) Admission \$9(or 8 w/ disc postcard) See you there, should be a big show!

"Show  
and  
Tell"

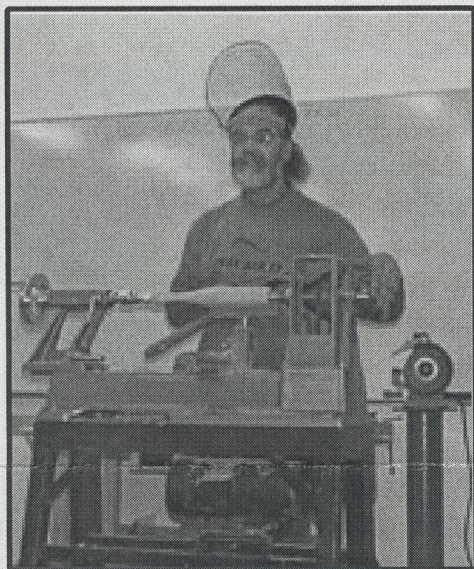

Gene Wentworth monitored the outstanding selection of great pieces brought to the November meeting. The request for more items has been answered and the collection of great turnings is to be applauded. As mentioned in the last news letter this portion of our meeting is gaining more and more popularity. Unfortunately, it time consuming and cuts into the demonstrator's time. Ron Bentall, Phil Houck, Pete Holtus Bear Limvere to name a few brought some outstanding pieces. Sorry, the lack of space did not allow for coverage of all the participants. Dane Harris has some super shots on our web site "Member Gallery"

## -FRONT RANGE WOODTURNERS-

NOVEMBER DEMONSTRATION - DAVID NITTMANN

*David turning a multi-axis tool handle*

Well Mr. Nittmann did justice to his reputation with a detailed and well executed demonstration of multi-axis turning. The club needs to apologize for taking so much of David's demo time with club business. As most of you recall, David asked for what area of turning we would like him to demonstrate and he certainly followed through with our request. His hand outs made this complex subject easier to understand. Even though David's review and demo of multi axis turning for decoration was a bit complicated, his diagrams made it understandable and gave the over all approach of this type of speciality turning a lot clearer. David's bottom line for this type of turning... "the more accurate the layout, the more accurate the finished product. Thanks David for sharing your expertise with us, it is obvious your attention to detail shows so vividly in your work. Hopefully we'll have the opportunity to see more of your turning talents and professional work in the future.

### 2002 OFFICERS & CHIRPERSONS
